BUSINESS ANALYST | KPI REPORTING | DASHBOARD ANALYSIS | DATA REPORTING

Entry-level Business Analyst with hands-on project experience in Excel dashboards, KPI reporting, data analysis, data cleaning, data visualization, and business reporting. Skilled in transforming raw data into structured reports and dashboard views that support business performance monitoring, trend analysis, and decision-making. Strong analytical thinking, problem solving, communication, attention to detail, and requirement understanding.

CORE SKILLS

- Microsoft Excel
- Business Analysis
- Pivot Tables
- Slicers
- Dashboard Creation
- Data Analysis
- Data Cleaning
- KPI Tracking and Reporting
- Dashboard Reporting
- Data Visualization
- Business Reporting
- Trend Analysis
- Requirement Understanding
- Decision Support
- Analytical Thinking
- Problem Solving
- Communication
- Attention to Detail

SELECTED BUSINESS ANALYSIS PROJECTS

Interactive KPI Dashboard

Excel Dashboard Project

- Built an interactive Excel dashboard to analyze revenue by client and year using summarized views, Pivot Tables, and slicers.
- Generated dynamic KPI reports to support business review, performance monitoring, and decision-making.

Month-wise Sales Trend Analysis

Excel Reporting Project

- Analyzed monthly sales data to identify growth patterns, trend shifts, and performance changes over time.
- Presented trend insights through visual summaries to support reporting and performance review.

Client Contribution Analysis

Revenue Reporting Project

- Evaluated client-wise revenue contribution and visualized distribution using summarized Excel reports.
- Identified major contributing clients to support business reporting and performance monitoring.

Financial Summary Reporting

Financial Reporting Project

- Prepared financial summaries with automated tax calculation, totals, and structured reporting outputs in Excel.
- Improved consistency and speed in recurring report preparation through organized templates, formulas, and repeatable reporting logic.

ACADEMIC AND INNOVATION PROJECTS

Navi Glove - Assistive Navigation System for Visually Impaired

Academic Project

- Designed a wearable navigation aid using sensors for real-time obstacle detection.
- Focused on user-centric problem solving, practical usability, and real-world assistance.

AI-Enabled Disaster Management System

Conceptual Project

- Designed a data-driven concept integrating AI and GIS ideas for monitoring and decision support.
- Structured the solution around visibility, information flow, and support for better response decisions.

Tamper-Proof Smart Weighing Scale - Smart India Hackathon

Innovation Project

- Contributed to a secure monitoring and data-logging solution focused on accuracy, reliability, and system integrity.
- Supported a problem-solving approach centered on dependable measurement and trustworthy reporting.

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering

Velammal Institute of Technology, Chennai

2023 - 2027
