

MOHAMMED FAHEEM F S

Business Analyst | Product Operations | Strategy & Growth

+91 9840502598 · mdfaheem2507@gmail.com · [linkedin.com/in/faheemfs](https://www.linkedin.com/in/faheemfs) · Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Results-oriented Business Analyst with hands-on experience in business analysis, product operations, product management, go-to-market strategy, and data analysis in real-world SaaS environments. Skilled in requirements gathering, sprint planning in Jira, CRM configuration, and stakeholder communication across cross-functional teams. Experienced in strategy and growth initiatives including competitive analysis, customer persona development, and KPI reporting. Equally comfortable translating business needs into product specifications or supporting growth and operations goals. Actively building skills in SQL and Power BI to deepen data analysis capabilities.

CORE SKILLS

Business Analysis & Strategy	Requirements Gathering · Business Analysis · PESTLE Framework · GTM Planning · Strategy · Business Model Canvas · Competitive Analysis
Product Management	Product Operations · User Stories · Acceptance Criteria · Sprint Planning · Backlog Management · Low-Fi Wireframing · Scope Documents · Jira
Data Analysis & Reporting	Data Analysis · Google Analytics · KPI Dashboards · UTM Tracking · Heat Map Analysis · Excel & Pivot Tables · EBITDA Reporting
CRM & Growth	CRM Configuration · Growth · Round-Robin Lead Assignment · Bot Chat Escalation · Payment Integration · Stakeholder Communication
Tools	Jira · Miro · SaaS · Postman · Google Dialogflow · Substack · TasksBoard

PROFESSIONAL EXPERIENCE

Business Analyst Intern

2025 Nov – Feb 2026

Warsha — SaaS Platform (Saudi Arabia / UAE Market)

- Designed and executed a full Go-to-Market (GTM) strategy including PESTLE analysis, competitive benchmarking, and customer persona development to guide launch and positioning.
- Created scope documents, sprint plans, and managed product backlog in Jira across multiple development cycles; delivered 25+ tracked tasks end-to-end.
- Developed low-fidelity wireframes and user stories with acceptance criteria to communicate product requirements to development teams.
- Set up UTM tracking, Google Analytics events, and heat map analysis to enable data-driven performance monitoring; built KPI dashboards and EBITDA financial summaries to support stakeholder decision-making.
- Configured CRM workflows including round-robin lead assignment, bot-to-human chat escalation, and payment integration flows for the Warsha platform.
- Designed subdomain architecture, sitemap, and information architecture to support scalability; managed Arabic content localization for regional expansion.
- Facilitated 75+ product improvement suggestions to stakeholders via structured walkthroughs, roadmap presentations, and a Business Model Canvas (CSNVS).
- Produced flowcharts, user journey maps, and a product metrics framework to track engagement and growth KPIs; launched Substack newsletter and defined content cadence.

ACADEMIC & INNOVATION PROJECTS

Navi Glove – Assistive Navigation System

Academic Project

- Designed a wearable obstacle-detection aid for visually impaired users using sensor integration — focused on usercentric problem solving and real-world accessibility impact.

AI-Enabled Disaster Management System

Conceptual Project

- Structured a data-driven solution integrating AI and GIS concepts for disaster monitoring and emergency response decision support, with an emphasis on information flow design.

Tamper-Proof Smart Weighing Scale

Smart India Hackathon

- Contributed to a secure data-logging and monitoring solution, centering the approach on reliability, measurement accuracy, and trustworthy system reporting.
